

Eighth Pacific Northwest Test Workshop

aka: BAST99

Feb 23 -26, 1999
Bodega Bay, California

CALL FOR SPONSORSHIP

The 8th annual BAST workshop, co-sponsored by the Stanford University Center for Reliable Computing (CRC) and the IEEE Computer Society Test Technology Technical Committee (TTTC)*, will be held Feb. 23 -26, 1999, in Bodega Bay, California. BAST is an informal workshop whose objective is to bring together engineers and scientists from the Pacific Northwest region to discuss current work on testing electronic circuits. A program and report from BAST98 is available from the web site at the bottom of this page.

The BAST workshop has an interesting balance of participation from Semiconductor, EDA, and Automatic Test Equipment manufacturers, as well as several participants from local research universities. Sponsorship of the BAST workshop is offered for \$500.00, and allows sponsoring companies to include their corporate logo on the BAST souvenir. At BAST98, this was a very nice web lined light outdoor jacket, with each logo printed on the backside. Following is a list of companies that sponsored BAST98.

- Advantest
- Cirrus Logic
- Credence
- DTS
- Duet
- Hal Computer
- Hewlett Packard
- IBM
- Logic Vision
- LSI Logic
- Mips
- National Semiconductor
- Opmaxx
- Pycon Incorporated
- Sun Microsystems
- Synopsis
- Syntest
- Teradyne

Corporate sponsors are invited to send a check for sponsorship (make checks payable to IEEE/CRC BAST Workshop), and a hard or electronic copy of their corporate logo by November 13, 1998 to:

Siegrid Munda
Gates Bldg. 2A
Stanford, CA 94305

E-mail: munda@crc.stanford.edu
Voice: 650-723-1258
FAX: 650-723-1451

General Chair: E.J. McCluskey
Co-General Chair: R. Chandramouli
Program Chair: Siyad Ma
Entertainment Chair: Davia Lu

Local Arrangements: Siegrid V. Munda
Publicity Chair: Mike Purtell
Registration Chair: Nahmsuk Oh
Finance Chair/IEEE Liaison: Subhasish Mitra
